JOEY HUANG

黃旭寬 | 清大資工系二年級梅班

Research Interest

2024/9-2026/8 Graph Machine Learning, Information Retrieval, Stochastic Process

2026/9-expected Graph Neural Networks for Electronic Circuit Layout, Quantum Many-Body Physics and Artificial Neural Networks, Quantum Error Correction in Circuit Architectures, Geometric Deep Learning

Education

2021/9-2024/8 National Hsinchu Senior High School, Taiwan

2024/9-2026/8 National Chengchi University, Taiwan
Major: Undeclared Major in College of Communication
Double Major: Bachelor Program in Artificial Intelligence Applications
Minor: Department of Mathematical Sciences

2026/9- **Deparment of Computer Science**, National Tsing Hua University, Taiwan

Work Experience

2026/7-2026/8 **R&D Intern** (Recommendation System), Taiwan Dubao

Research Experience

2026/2 **Integrating Geometric Graph Embeddings with Large Language Models for Reasoning in Occupational Safety Regulations**
Hsu Kuan, Huang. National Science and Technology Council Undergraduate Research Program, Division of Intelligent Computing, Department of Engineering (115-2813-C-004-067-E); Presented at 2025 GDG NCCU Final Presentation Meeting.

2026/9 Fraud Detection Based on Dual-Channeled Signed Graph, Laplacian Regularization and Gradient Boosting
Hsu Kuan Huang[1], En Shuo Zhang[2], Chao-Ling Chen[3]*. Written for TANET. Presented at 2026 GDG NCCU Final Presentation Meeting.

Relevant Coursework

2024/9-2026/8 **Graph Neural Network** (94.25, audit), Special Topics in Artificial Intelligence Applications (95), Capstone: Practice of Generative AI and Data Science (97.6), Data Structure (88), **Algorithms** (93), **Stochastic Processes** (78), Linear Algebra (87/93), General Physics (100/87), Calculus A (90/99), **Introduction to Nano Science and Technology** (96), **Natural Language Processing** (99), Machine Learning : Concepts and Applications (91), Machine Learning and its Applications in Behavioral Science (87), Differential Equations (70), Statistics(I) (90).

Language Skills

2024/2 English (TOEIC 905)

2024/12 Japanese (**JLPT N1**, PR 96.8, 158/180)

Other Experience

2022/9-2023/8 Club President, 9th Session of Hsinchu High School Model United Nations

2022/10 CCMUN Conference (Awarded Best Position Paper)

2023/1 Chief Organizer and Chair, Hsinchu District Five-School MUN Winter Training

2023/4 **Secretary General**, Fong MUN Conference

2023/4 **Head Organizer and Chair**, Ten-School MUN Spring Training

2023/6 Academic Advisor and Chair, RsMUN Conference

2023/9-2024/8 Faculty Advisor, 10th Session of Hsinchu High School Model United Nations

2024/9-2025/8 Active Member, Taiwan–Japan Exchange Association at NCCU

2024/9-2026/8 Class Representative, College of Communication (Class D)

2025/3 CS50's Introduction to Artificial Intelligence with Python

2025/4 Finalist, AIWave: Taiwan Generative AI Applications Hackathon

2025/8 Completed Certification Course in Python for Quantum Computing (Packt, Coursera)

2026/3 **Invited Lecturer**, Google Developer Group (GDG): Research Talk on Graph Neural Networks and Knowledge Graphs: From Foundational Theory to Geometric Constraint Generation
